PROFESSIONAL EXPERIENCE

With 20 years of insurance claims experience, I have worked diligently to become one the best in my field of expertise. I have consistently worked as an adjuster/appraiser who handles both commercial and residential claims across multiple carriers and firms. Over the past 20 years, I have handled large residential and commercial claims with damage due to fire, smoke, tornado, vehicle, vandalism, wind and hail. I have handled 5-million-dollar, large loss commercial claims due to tornado, fire and hurricanes. I have given over 100 depositions for Insurance Carriers and have been named as an Expert Witness by Citizens Property Insurance Corp. I am honest and reliable with a strong work ethic to handle the task at hand. My goal is to quickly and consistently complete an in-depth and accurate appraisal award or umpire estimate to resolve the dispute for both parties.
